

Stanislav “Stan” Kelman for VP of Academics

A comprehensive program to help you *balance* Academics
with the rest of your Columbia experience

I will work with the Administration on the following issues:

- A more flexible core curriculum to better suit diverse student needs.
- Greater emphasis on management and sales skills that employers demand.
- New recruiting policies designed to reduce stress and scheduling conflicts.
- ... and a stop to the barrage of useless e-mail that we get every day!
